

Educational Transitions and Pathways Experiences of Post-secondary students in Singapore

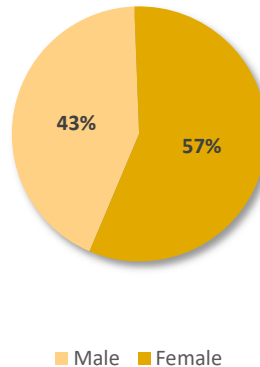

Profiles of Participants

A total of 4340 responses were collected in 2021/2 from post-secondary students across Singapore. 32% belonged to a longitudinal sample surveyed in 2018 (Secondary 3). Within this group, about half were surveyed two years earlier in 2016 (Secondary 1). The remaining 68% were part of the new/refresh sample recruited through their post-secondary institutions.
